SPEARHEAD FENCE & GATE

FENCE MEASUREMENT WORKSHEET

Measure your fence line for a fast, accurate estimate

HOW TO MEASURE

- [ ] Walk the line where the fence will go, not the property line itself, unless they are the same
- [ ] Measure each straight run corner to corner with a tape or measuring wheel. Pacing is fine for a rough number (1 adult step is about 2.5 ft)
- [ ] Include the gate openings in the run lengths, then list gates below
- [ ] Note slopes, trees, roots, drainage swales and tight access
- [ ] Your final price uses our on-site measurement, so rough numbers are fine

SKETCH YOUR YARD

Draw the house, driveway, pool and sheds. Draw the fence line, label each run with a letter, and mark gates with a G.

RUNS

Run	From / to	Feet	Slope?
A			
B			
C			
D			
E			
F			
G			
H			
Total feet			

GATES

Where	Width	Walk / drive / wide

NOTES

General guidance, not legal advice. Rules vary by city, county and HOA; confirm for your address. Reviewed November 2026.
